Beschreibung

Airtame 2 is a wireless device that provides a user-friendly all-in-one screen collaboration platform, making the most out of screens around offices, schools, and campuses. Enjoy quick wireless screen sharing and informative digital signage on any display.

Airtame 2 is a wireless device that provides a user-friendly all-in-one screen collaboration platform, making the most out of screens around offices, schools, and campuses. Enjoy quick wireless screen sharing and informative digital signage on any display. Colleagues, teachers, and students, can start sharing their screen in seconds from any platform (MacOS, Windows, Chromebook, Linux, iOS, or Android) using the dedicated app, Google Cast, AirPlay, or Miracast, from either PCs, laptops, tablets, or smartphones. IT-admins can connect the Airtame 2 to the cloud-based management system to group edit settings, update and schedule digital signage content, reboot devices, and push out firmware updates for multiple screens simultaneously, from anywhere in the world. 3 year subscription included.
